## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claim 34 is rejected under 35 U.S.C. 102(b) as being anticipated by Murata (4374624).

The reference discloses a water resistant timepiece with case 1, electroacoustic transducer 14,16,20 separated from an inlet cavity defined a the space between plate 25 and membrane 18 (Fig. 1) by deformable water resistant membrane 18 (col. 3, lines 7-8, water resistant property defined by “resin plate”), the cavity being In direct communication with the exterior through openings 36, and electronic component 2 in the back cover and separated from the inlet cavity by membrane 18

### ***Claim Objections***

Claims 18-33 are objected to because of the following informalities: In claim 18, line 5, before “transducer” the conjunction “and” should be inserted for proper grammar. Appropriate correction is required. Claims 1-33 are otherwise allowable over the prior art.
